

This SEN Information Report will be updated regularly to reflect changes and plans within the school. This report outlines the current provision within Granta School although it should be born in mind that we adapt our provision to meet the needs of incoming pupils and therefore is subject to alteration.

What types of SEN do we provide for?

Granta School is a maintained day special school for children aged 3-19. All children who attend our school will be provided with an appropriately paced and differentiated curriculum.

At Granta, pupils' identified needs will be complex and will always include a long term difficulty/ disability in the area of cognition and learning. Some pupils may also have associated needs in the areas of emotional/social and communication and interaction (autistic spectrum condition and/or speech and language difficulties). In addition our pupils may need support for physical health needs and/or sensory needs such as visual and hearing impairments.

More detail on our commitment to high quality educational provision for all our young people is detailed on our website and prospectus.

What are the school's policies for the identification and assessment of pupils/students attending the school?

All pupils/students will have a Statement of Special Educational Needs or, from September 2014, an Education, Health and Care Plan (EHCP). The school is currently following the timeline provided by the Local Authority in transferring information contained within pupils' Statement of Special Educational Needs to inform EHCPs. Information on the admissions process to our school can be found on our website. Admission is always via local authorities (Cambridgeshire/ Essex and Suffolk). We provide regular and on-going assessment of needs for all our pupils which includes academic assessment/ welfare support/ networking with other professionals for support and guidance/ facilitating onward referrals on behalf of children and families.
